

Statement of Sources and Uses of Funds For the Five Months Ended February 29, 2016

The attached "Statement of Sources and Uses of Funds" statement is provided for your review. This financial statement provides summary-level revenues (i.e., sources) and expenditures by program (i.e., uses). **This unaudited financial statement is provided as of February 29, 2016, with 41.7 percent of the fiscal year completed.**

This financial statement compares revenues recognized and encumbrances/expenditures made against the District's FY2015-16 available budget of \$324.9 million. Encumbrances represent orders for goods and services which have not yet been received.

Revenues (Sources) Status:

- Overall, as of February 29, 2016, 81 percent of the District's budgeted revenues/balances have been recognized.
- As of February 29, 2016, the District has received \$92.8 million of ad valorem tax revenue representing 89 percent of the budgeted amount. This is in-line with the five month prior year collection rates of 89 percent for FY2014-15 and 88 percent for FY2013-14. The budget represents 96 percent of the taxable property values as certified by the District's sixteen counties multiplied by the Governing Board approved millage rate. Projections are based on historical collections.
- Intergovernmental Revenues are recognized at the time related expenditures are incurred. For FY2015-16, \$2.1 million in revenues has been recognized, representing 4 percent of the budgeted amount. From year to year, the budgeted amount of intergovernmental revenue compared to the recognized amount can fluctuate for various reasons; projects can be in the planning stages and have not incurred a significant amount of expenditures, or anticipated projects may be canceled (e.g., cooperative funding projects).
- The FY2015-16 interest earnings budget was based on a 0.70 percent expected rate of return. The District's investment portfolio at February 29, 2016, is earning a weighted average yield of 0.84 percent. For the five months ended February 29, 2016, the District has earned 0.83 percent yield on its investments. Interest earnings on invested funds in the amount of \$1.7 million, have been recognized representing 54 percent of the budgeted amount.
- License and Permit Fees consist of revenue from water use permits, environmental resource permits, water well construction permits, and water well construction licenses. Revenue recognized represents 41 percent of the budgeted amount as of February 29, 2016.
- As of February 29, 2016, other revenue earned is 56 percent of budget amount. Each year, items that fall within the "Other" revenue category are budgeted conservatively due to the uncertainty of the amounts to be collected. For example, revenues from timber sales, hog hunts, insurance recoveries and the sale of fixed assets can vary significantly from year to year.

- Fund Balance consists of balance from prior years (budgeted for the current year) plus fund balance associated with the ad valorem funded encumbrances that rolled into the current year.

Expenditures (Uses) Status:

Overall, as of February 29, 2016, the District had obligated 61 percent of its total budget.
