

**Statement of Sources and Uses of Funds  
For the Two Months Ended November 30, 2015**

The attached "Statement of Sources and Uses of Funds" statement is provided for your review. This financial statement provides summary-level revenues (i.e., sources) and expenditures by program (i.e., uses). **This unaudited financial statement is provided as of November 30, 2015, with 16.7 percent of the fiscal year completed.**

This financial statement compares revenues recognized and encumbrances/expenditures made against the District's FY2015-16 available budget of \$325.2 million. Encumbrances represent orders for goods and services which have not yet been received.

**Revenues (Sources) Status:**

- Overall, as of November 30, 2015, 57 percent of the District's budgeted revenues/balances have been recognized.
- As of November 30, 2015, the District has received \$18.4 million of ad valorem tax revenue representing 18 percent of the budget. The budget represents 96 percent of the taxable property values as certified by the District's sixteen counties multiplied by the Governing Board approved millage rate. Projections are based on historical collections.
- Intergovernmental Revenues are recognized at the time related expenditures are incurred. For FY2015-16, \$135,373 in revenues has been recognized, representing less than 1 percent of the budget. From year to year, the budgeted amount of intergovernmental revenue compared to the recognized amount can fluctuate for various reasons; projects can be in the planning stages and have not incurred a significant amount of expenditures, or anticipated projects may be canceled (e.g., cooperative funding projects).
- The FY2015-16 interest earnings budget was based on a 0.70 percent expected rate of return. The District's investment portfolio at November 30, 2015, is earning a weighted average yield of 0.79 percent. For the two months ended November 30, 2015, the District has earned 0.88 percent yield on its investments. Interest earnings on invested funds in the amount of \$655,880, have been recognized representing 21 percent of the budgeted amount.
- License and Permit Fees consist of revenue from water use permits, environmental resource permits, water well construction permits, and water well construction licenses. Revenue recognized represents 16 percent of the budgeted amount as of November 30, 2015.
- As of November 30, 2015, other revenue earned is 14 percent of budget. Each year, items that fall within the "Other" revenue category are budgeted conservatively due to the uncertainty of the amounts to be collected. For example, revenues from timber sales, hog hunts, insurance recoveries and the sale of fixed assets can vary significantly from year to year.
- Fund Balance consists of balance from prior years (budgeted for the current year) plus fund balance associated with the ad valorem funded encumbrances that rolled into the current year.

### **Expenditures (Uses) Status:**

Overall, as of November 30, 2015, the District had obligated 54 percent of its total budget.
