

**Preliminary Statement of Sources and Uses of Funds
For the Twelve Months Ended September 30, 2017**

The attached "Preliminary Statement of Sources and Uses of Funds" statement is provided for your review. This financial statement provides summary-level revenues (i.e., sources) and expenditures by program (i.e., uses). **This unaudited financial statement is provided as of September 30, 2017, with 100 percent of the fiscal year completed.**

This financial statement compares revenues recognized and encumbrances/expenditures made against the District's FY2016-17 available budget of \$348.6 million. Encumbrances represent orders for goods and services which have not yet been received.

Revenues (Sources) Status:

- Overall, as of September 30, 2017, 86 percent of the District's budgeted revenues/balances have been recognized.
- As of September 30, 2017, the District has received \$106,751,269 of ad valorem tax revenue representing 101 percent of the budget. This is in-line with the twelve-month prior year collection rates of 101 percent for FY2015-16 and 101 percent for FY2014-15. The budget represents 96 percent of the taxable property values as certified by the District's sixteen counties multiplied by the Governing Board approved millage rate. Projections are based on historical collections.
- Intergovernmental Revenues are recognized at the time related expenditures are incurred. For FY2016-17, \$11,909,523 in revenues has been recognized, representing 17 percent of the budget. From year to year, the budgeted amount of intergovernmental revenue compared to the recognized amount can fluctuate for various reasons; projects can be in the planning stages and have not incurred a significant amount of expenditures, or anticipated projects may be canceled (e.g., cooperative funding projects).
- The FY2016-17 interest earnings budget was based on a 0.85 percent expected rate of return. The District's investment portfolio at September 30, 2017, is earning a weighted average yield of 1.24 percent. For the twelve months ended September 30, 2017, the District has earned 1.09 percent yield on its investments. Interest earnings on invested funds in the amount of \$5,408,617 have been recognized representing 142 percent of the budgeted amount. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 31, for year-end reporting purposes only, interest earnings are adjusted to reflect the changes in the fair value of investments. Therefore, interest earnings have been adjusted to reflect a net unrealized loss of approximately 1.2 million, decreasing interest earnings on invested funds to the \$3,094,500. This was primarily attributed to increasing interest rates.
- License and Permit Fees consist of revenue from water use permits, environmental resource permits, water well construction permits, and water well construction licenses. Revenue recognized represents 114 percent of the budgeted amount as of September 30, 2017.

- As of September 30, 2017, other revenue earned is 1188 percent of budget. Each year, items that fall within the “Other” revenue category are budgeted conservatively due to the uncertainty of the amounts to be collected. For example, revenues from timber sales, hog hunts, insurance recoveries and the sale of capital assets can vary significantly from year to year. The majority of the increase is due to sale of capital assets in the amount of \$4,915,779 and timber sales in the amount of \$708,578.
- Fund Balance consists of balance from prior years (budgeted for the current year) plus fund balance associated with the ad valorem funded encumbrances that rolled into the current year.

Expenditures (Uses) Status:

Overall, as of September 30, 2017, the District had obligated 88 percent of its total budget.

Summary of Expenditures by Program

This financial statement illustrates the effort to date for each of the District’s six statutory program areas (Section 373.536(5)(e)4, Florida Statutes). A discussion of the expenditures by program follows.

- The **Water Resource Planning and Monitoring Program** includes all water management planning, including water supply planning, development of minimum flows and levels, and other water resource planning; research, data collection, analysis, and monitoring; and technical assistance (including local and regional plan and program review). Of the \$41.8 million budgeted for this program, the District has obligated 91 percent of the budget (53 percent expended and 38 percent encumbered).
- The **Land Acquisition, Restoration and Public Works Program** includes the development and construction of all capital projects (except for those contained in the Operation and Maintenance of Works and Lands Program), including water resource development projects/water supply development assistance, water control projects, and support and administrative facilities construction, land acquisition (i.e., Florida Forever program), and the restoration of lands and water bodies. Of the \$244.2 million budgeted for this program, the District has obligated 87 percent of the budget (12 percent expended and 75 percent encumbered).
- The **Operation and Maintenance of Works and Lands Program** includes all operation and maintenance of facilities, flood control and water conservation structures, lands, and other works authorized by Chapter 373, Florida Statutes. Of the \$24.8 million budgeted for this program, the District has obligated 80 percent of the budget (60 percent expended and 20 percent encumbered).
- The **Regulation Program** includes water use permitting, water well construction permitting, water well contractor licensing, environmental resource and surface water management permitting, permit administration, compliance and enforcement, and any delegated regulatory program. Of the \$21.1 million budgeted for this program, the District has obligated 91 percent of the budget (81 percent expended and 10 percent encumbered).

- The **Outreach Program** includes all environmental education activities, such as water conservation campaigns and water resources education; public information activities; all lobbying activities relating to local, regional, state, and federal governmental affairs; and all public relations activities and advertising in any media. Of the \$2.7 million budgeted for this program, the District has obligated 93 percent of the budget (68 percent expended and 25 percent encumbered).
- The **Management and Administration Program** includes executive management, executive support, governing board support, ombudsman, general counsel, inspector general, administrative support (general), procurement, finance, human resources, and risk management. Of the \$14.0 million budgeted for this program, the District has obligated 94 percent of the budget (86 percent expended and 8 percent encumbered).

Based on the financial activities for the twelve months ended September 30, 2017, the financial condition of the District is positive and budget variances are generally favorable. There are no reported or identified major trends, conditions or variances that warrant additional management attention.
